DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/16/2006 has been entered.

Terminal Disclaimer

2. The terminal disclaimer filed on 02/16/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,890,102 has been reviewed and is NOT accepted.

3. An attorney or agent, not of record, is not authorized to sign a terminal disclaimer in the capacity as an attorney or agent acting in a representative capacity as provided by 37 CFR 1.34 (a). See 37 CFR 1.321(b) and/or (c).

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

Art Unit: 3727

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 16-19 and 22-26 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-18 of U.S. Patent No. 6,890,102 in view of Boyn. U.S. Patent No. 6,890,102 discloses the claimed device except for the bag panels containing a closure device. Boyn discloses that it is known in the art to provide handle bags with a closure device. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the bag panels of U.S. Patent No. 6,890,102 with the closure device of Boyn, in order to close the opening of the bag.

6. Claims 16-19 and 22-26 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-11 and 17-21 of copending Application No. 11/010,335 in view of Boyn. Application No. 11/010,335 discloses the claimed device except for the bag panels containing a closure device. Boyn discloses that it is known in the art to provide handle bags with a closure device. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the bag panels of Application No. 11/010,335 with the closure device of Boyn, in order to close the opening of the bag.

This is a provisional obviousness-type double patenting rejection.

Response to Arguments

7. Applicant's arguments with respect to claims 16-9 and 22-26 have been considered but are moot in view of the new ground(s) of rejection.
